Gentlemen:

Transmitted herewith is the report entitled, "An Archaeological and Historical Survey of Selected Parcels Within the U. S. Department of Energy's Rocky Flats Plant, Northern Jefferson County, Colorado," dated January 1, 1989. The report is being submitted in accordance with the requirements of the National Historic Preservation Act and the Colorado Office of Archeology and Historic Preservation.

The results of the survey indicated that no site eligible for inclusion on the National Register of Historic Places was discovered within the boundaries of land owned by the U. S. Department of Energy at the Rocky Flats Plant. One important site was located south of Woman Creek and consisted of a late nineteenth century and early twentieth century general store. Protection for the site is being provided.

One copy of the report complete with photographs and site forms is enclosed. Questions concerning the enclosed information can be directed to Ms. Candice C. Jierree of my staff on 303-966-4888.

Sincerely,

Albert E. Whiteman
Area Manager
